## OUR PUBLIC SERVICES

The Committee encourages members to make full use of the information and other services provided to them by the Council and other public bodies, including the various helplines and internet reporting arrangements. We often hear of problems and find that that no one has reported them, so nothing has been done. Regular reporting does raise standards.

The contacts given here are believed to be correct as at November 2018.

## **BRISTOL CITY COUNCIL (BCC) MAIN SWITCHBOARD**

The Council website now has online reporting forms for all types of issues. It is very comprehensive and quite user friendly. Information entered on the reporting forms is immediately directed to the relevant department or officer. Sending an email or a letter, or phoning the helpline will not get as quick a response as it will involve the council staff filling in the report form for you. So use the online report forms wherever possible.
